

Jimmie Eggers

Superintendent/Principal

September 23, 2020

Our Marcum-Illinois Families,

Our school waiver application has cleared the first hurdle for approval from the county health officer for submitting to the state for reopening. We are now awaiting approval at the state level to open our TK-5<sup>th</sup> grade classes under the state's waiver program. The state can take up to two weeks to respond to our waiver request and has the ability to deny the request. We will notify you as to a restart date for the school to open for in class learning. Please be patient with us as we cannot determine a start date until hearing back from the state.

Applications for our after-school DEN program are included in this email. The number of students allowed in the DEN will be limited. **Please submit your application by Monday, September 28<sup>th</sup> by 9 am.** Please submit your application only if childcare is necessary due to the limited space. Students who meet the criteria of 5 days a week until at least 4:30 pm will be given priority.

You and your family may have specific questions that have not been answered in this letter. Please feel free to reach me by email or by cell phone so that I may answer those questions. My number is (530)777-8016.

Sincerely,

A handwritten signature in blue ink, appearing to read "Jimmie Eggers".

Jimmie Eggers  
Superintendent/Principal
